GOOD NEWS AGAIN

Prices of our Vegetable and Flower seed still remain at the 1944 level; our Formulas No. 1 and No. 2 Lawn seed Mixtures are considerably less than they were last Spring and the prices of most varieties of Gladiolus have been reduced.

Last year most of our Vegetable seed and some of our Flower seed was treated with Spergon which is recommended by leading authorities as a protection against soil carried fungus diseases. Many of our customers feel that this is a definite contribution toward the success of their crops, especially in bad seasons. We are therefore continuing the practice and in addition are using Arasan on varieties which tests have shown produce heavier yields with the latter.
